LIBRARY

STUDY OUTLINE SERIES

UNITED STATES
SINCE THE CIVIL WAR

Many clubs are convinced of the advantage of studying one subject thruout the season, and for this work a carefully prepared program is needed. Local or state committees and state library commissions have spent time in preparing outlines which would be suitable for use elsewhere if they could be made available by printing. It is proposed in this series to centralize such work and to conserve the effort spent in making a good outline by putting it in shape for distribution. Clubs themselves by an actual testing of the outlines thus offered will be able to offer suggestions and criticism which will lead to a revision of form.

The Study Outline and Its Use

The series will include outlines on art, literature, travel, biography, history and present day questions.

The outlines vary in length. If more topics are given than the number of club meetings for the season, those topics that are more difficult to handle or on which there is less available material, may be dropped. If there are fewer topics than the scheduled meetings, certain topics may be divided.

Lists of books are appended to some of the outlines. It would be well for the club to own some of the recommended books. Others can be obtained either from the local public library or from the state traveling library. When very full lists are given it is not necessary for any club to use all the books, but the longer list leaves more room for choice.

The best material on some subjects may be found, not in books, but in magazines. These may be looked up under the subject in the *Readers' Guide to Periodical Literature.* Magazine articles and illustrated material may be obtained from the *Wilson Package Library.* For terms see fourth page of cover.

A list of the study outlines now in print will be found on page three of this cover. For later additions to the list write to publisher.

STUDY OUTLINE

ON

THE UNITED STATES SINCE THE CIVIL WAR

This outline is intended for clubs studying advanced American History or Modern Problems.

When the program is used by a history club, all the topics should cover the period from the civil war to the current year unless otherwise specified. Clubs whose interests are less historical may emphasize the political, civic or social importance of the subjects.

Every club member using this program is advised to read through and consult before each meeting Beard's "Contemporary American History" or one of the standard histories for this period. However, no one preparing a paper should depend on these alone.

The references inserted throughout the outline are intended as suggestions for first reading about the subject. Further study should be done in other books, the encyclopedias, yearbooks and magazine articles.
